SEARCH FOR GUIDED MISSILE ACTIVITY AND ITEMS OF INTELLIGENCE
INTEREST ALONG THE TULUN-ZIMA SECTION OF THE
TRANS-SIBERIAN RAILROAD, EAST SIBERIA, USSR

The 139-kilometer section of the Trans-Siberian Railroad between Tulun (54-35N 100-33E) and Zima (53-55N 102-04E) was covered by excellent quality photography on KEYHOLE [REDACTED] The photography of this area was studied primarily to locate and describe any unidentified, unusual installations that might possibly be related to guided missile activity, and also to locate and identify any items of intelligence significance. 25X1D

In the approximately 3,000-square-nautical-mile area covered by the accompanying photomosaic, no unidentified, unusual installations were observed that appeared to bear any relation to the Soviet guided missile program.

Items of intelligence interest were observed at the following locations. They are numbered to correspond to the numbers on the accompanying photomosaic.

<u>LOCATION</u>	<u>ITEMS</u>	
1. TULUN	Civil airfield [REDACTED] small, sod surface. Railroad yards and shops [REDACTED] Several rail-served, unidentified industries. This city appears to have doubled in size since WW II.	25X1A 25X1A
2. SHERAGUL	Large log-storage yard and sawmill. A narrow-gauge railroad leads 30 km north to extensive logging activity.	
3. TULYUSHKA	Large log-storage yard and sawmill. A narrow-gauge railroad leads 30 km north to extensive logging activity. Electric power substation.	
4. KIMELTEY	A narrow-gauge railroad leads 50 km west to extensive logging activity.

5. PEREVOZ

Rail-served, secure, possible storage facility in wooded area. Just north of Perevoz RR station, a rail spur, one kilometer long, leads west into a rectangular-shaped, 3,000-by 1,200-foot wooded area. This area is surrounded by a 150 foot wide cleared strip, apparently for double fencing. The small scale of this photography precludes a positive determination of the function of this installation.

6. ZIMA

Civil airfield [REDACTED] small, sod surface.
Railroad yards and shops [REDACTED] Several
rail-served unidentified industries.
